## \*PROFESSIONAL PROFILE

I am an Equity Partner at CDI Global Italy, where I have been working since 2020 in M&A and debt advisory. Additionally, I serve as the Global Head of the Aviation, Aerospace, and Defence industry group.

Since 2015, I have been collaborating with Cohen&Co., focusing on project finance, business and financial plan development, debt restructuring, financial modeling, governance, and regulatory compliance. Throughout my career, I have managed projects from initial client negotiations to final delivery.

I have contributed to significant projects such as the securitisation of Acciaierie d'Italia, the development of the Ethiopian Railways Masterplan in collaboration with Italferr, as well as the design of the railway link for the New International Airport of Mexico City and the financing of M4 and M5. I also supported a leading parking business operator in crafting a comprehensive business plan for the Italian market. Currently, I am part of the team working on a study to connect Milan Linate Airport with the new Westfield Mall in Segrate.

In addition, I have served as the CEO of TeckTouch, a company active in the aviation sector.
